

Lilith Miller-Fermor

Enthusiastic "Coding Bootcamp" graduate eager to get her teeth into interesting projects. Solid foundation of coding knowledge, with experience problem solving in diverse contexts. Growth mindset, picking up new skills and integrating them easily. Psychology degree, prior office experience.

EXPERIENCE

Virtual Assistant & Creative Tailor, Self-Employed — *Penarth/Shrewsbury*

March 2022 - PRESENT

Working for various clients in myriad ways to support them in their small businesses endeavours. Project management, Website development, IT support, Admin tasks, Calendar management, Research and planning.

Researched, designed & created custom soft toys of local endangered species to be used in an educational setting.

Nanny/Housekeeper, Employed & Self-Employed — *Penarth*

September 2016 - December 2017

Providing regular childcare for a few families. Responsibility for logistics of picking up and dropping off to different places, feeding, and caring for the children. Organised many activities for the kids to play and do.

Assistant Consultant, ESI Ltd — *Shrewsbury*

October 2005 - December 2015, for various periods throughout A-levels & degree, and for 3+ years afterwards.

Became known as the person to go to when someone needed a custom software tool developed. Created solutions in Python for ArcGIS, VBA for Excel, used SQL for accessing large data stores. Automated as much as possible of data-entry tasks, saving countless hours.

Worked diligently to the PM's instructions. Wide variety of tasks, from performing site inspections and collecting river water samples, to data entry, and using map archives to locate potential sources of contamination using GIS software.

Managed the company's online presence and their Google Ad campaigns. Part of the team that set up the new website, including migrating to the CMS. Relief administrative support when needed.

REFERENCES

Jason Sammon, Technical Director, Full Stack Developer and BootCamp Instructor— *University of Birmingham*

“Lilith is an exceptionally bright, driven, and talented Junior Full Stack Developer. In her group projects, she consistently played a pivotal and valuable role in each team, earning the respect of her cohort and consistently achieving high grades throughout the 24-week BootCamp.

I have no hesitation in wholeheartedly recommending her, and I have no doubt whatsoever that she will be a valuable asset to any development team.”
